Welcome to the first edition of our Postsecondary Readiness Guide. Inside you will find information about all of the Career and Technical Education, Concurrent Enrollment, Work-Based Learning opportunities (and so much more) that the Douglas County School District has to offer to our high school students. Here in DCSD, students can find the post-high school pathway (or pathways) that speak to their passions whether that be college, career, military or other option. We know that no two students are the same and it’s so important for every individual to find the pathway or pathways that are right for them. I hope you will take the time to read through the fantastic offerings outlined in this guide. Should you have questions about courses offered, or wish to see some of these classes in person, please reach out to the school to ask questions or request a tour.

We are incredibly thankful to the college and business partners in our community that make it possible for us to save families money on college tuition (DCSD families collectively saved nearly $3.7 million in college tuition last year alone!) and for our students to experience real-world and in-demand careers while still in high school. Thank you for being a part of this truly outstanding school district.

The Douglas County School District has provided our high school students high-quality educational opportunities in general education and elective programs for over 60 years. The commitment has been one of the cornerstones of our District. These excellent opportunities include concurrent enrollment (CE) courses and career and technical education (CTE) where students are able to earn high school and college credit as well as learn and explore skills, knowledge and abilities to be workforce, college, and career ready. We are committed to providing a comprehensive high school experience that provides our students the opportunities to explore their passions and gain a competitive advantage regardless of their plans for the future. In addition, we believe all students should have access to this programming regardless of transportation, enrollment or funding challenges. This document is our effort at sharing all of the opportunities that exist in our District in concurrent enrollment and career and technical education, as well as other programming available to students. We will be constantly updating this information as more programming is added. Please check back on the District website frequently for the most up-to-date information.
**Glossary of Terms**

**Postsecondary Readiness**
Guiding students through discovery, exploration, and skill development to find a purpose and determine the best path for the future. Postsecondary Readiness programming offers pathways to careers, college, military service, and continued education or training.

**Career and Technical Education**
Career and Technical Education is a state designation for rigorous academic programs that offer a clear program of study under a qualified, credentialed teacher integrating real world learning to prepare students for high-skill, high-wage, in-demand career fields. CTE programs offer students opportunities to apply learning, develop leadership, and enhance employability skills through Career and Technical Student Organizations (CTSOs); industry-recognized certifications, and access to work-based learning experiences.

**Concurrent Enrollment**
Concurrent enrollment provides high school students with the opportunity to enroll in postsecondary (college-level) courses and earn both high school and college credits with no tuition costs (excluding course fees and materials). Depending on availability and in accordance with District policy, students may apply to take concurrent enrollment classes in their high school or on a college campus. Concurrent enrollment also includes postsecondary Career and Technical Education (CTE) courses, enabling students to earn credit that can be applied towards an industry certification.

Concurrent enrollment courses are taught at each comprehensive high school by Douglas County School District teachers who have been approved as adjunct professors by an accredited institution of higher learning.

**“Ascent” Legislation**
Accelerating students through Concurrent Enrollment (ASCENT) is a fifth-year high school program that allows students to participate in concurrent enrollment following their senior year. Qualified students who have completed at least 9 credit hours of postsecondary coursework prior to completion of their senior year may be eligible for the ASCENT Program. In essence, the ASCENT program offers eligible students the opportunity to attend classes at a Colorado community college, tuition free. We believe demand for concurrent enrollment opportunities will increase in our school district and across Colorado, and DCSD wants to be ready.

**Pathways**
Pathways demonstrate a connection between learning progressions, advanced course options, instruction that supports skill development, stackable credentials, and work-based learning experiences to prepare students for training, education, military service, and/or advancement in a career field. Pathway programs offer DCSD students opportunities to explore, engage, and excel in learning that prepares them for success in the real world.

**Work-Based Learning**
Work-based learning encompasses a continuum of experiences that move students from Learning About Work to Learning through Work to Learning At Work. These experiences, a vital part of every CTE program, support students in making informed choices about a future career pathway and enhance career readiness skills. Options include internships, industry-sponsored projects, pre-apprenticeships, credit-for-work, clinical experiences, and more.

**Dual Enrollment**
Dual enrollment includes courses or programs that offer students college-level credit outside of the Concurrent Enrollment Programs Act. This option differs from Concurrent Enrollment (CE) in definition, funding model, and often postsecondary provider type with most offered by four-year institutions. Dual enrollment courses are not required to transfer, plus students and their families may be required to pay for courses.

Postsecondary Focus

Located in Lone Tree (in the former Wildlife Experience located off Lincoln and Peoria), the Legacy Campus will open in August 2023 to junior (11th) and senior (12th) students across Douglas County. Pathways at Legacy will not relocate or replace existing CTE classes within DCSD, but will complement and expand opportunities for students with relevant coursework where they earn college credit and industry certifications. Students will earn college credit from two- and four-year partner institutions to attain industry certifications to be competitive and career-ready.

Part-Time Enrollment

Students attending the Legacy Campus will still maintain almost all of their classes at their home high school, while attending pathway-specific courses at Legacy for 1-2 classes per semester in fields that prepare them for careers in highly employable fields such as health care, aviation, technology, hospitality, and more.

Collegiate Partners

We are excited to partner with the University of Colorado, University of Denver, Metro State University, the University of Colorado at Denver, and Arapahoe Community College to provide concurrent/dual credit opportunities to DCSD students at low or no cost. Our DCSD schools/departments and industry partners are also instrumental in the development of these pathways and opportunities. Check out each pathway to see what credit and credentialing opportunities await our students!
Career and Technical Education Programs:
Phase One Programs (2023-2024 School Year)
- Culinary and Hospitality
- Nursing/CNA (Certified Nurse Assistant)
- Architectural Engineering (Drafting)
- EMT/EMS (Emergency Medical Technician/Emergency Medical Services)
- Aviation (Pre-pilot concentration)
- Building Controls Technology
- Advanced Robotics
- Future Educator
- Secure Network Technologies

Phase Two Programs (TBD)
- Construction
- HVAC
- Welding
- Advanced Manufacturing
- Electrical

*Work-Based Learning Options:
*Internship and work-based learning opportunities available in each pathway

- Business and Marketing - student-run cafe
- Culinary and Hospitality - student-run cafe, Colorado Restaurant Association Youth Apprenticeship Program, catered events
- Bridge and Significant Support Needs - student-run cafe, various internship opportunities
- Future Educators/Teachers - Field Experience, DCSD Technology Internships

Concurrent Enrollment Options:
- ELT 1206 - Fundamentals of DC/AC
- ELT 2455 - Fluid Power
- ELT 2367 - Industrial Robotics
- AEC 1200 - Print Reading Residential/Commercial
- AEC 1510 - Building Materials
- CAD1101 - Computer Aided Drafting I
- CAD 1102 - Computer Aided Drafting II
- CAD 2220 - Revit Architecture
- AEC 1250 - Architectural Design and Modeling
- NUA 1001 - Nurse Aide Health Care Skills
- NUA 1070 - Nurse Aide Clinical Experience
- NUA 1071 - Advanced Nurse Aide Clinical
- CNG 2060 - 2062 - Cisco I-III
- CNG 1032 - Network Security Fundamentals
- CNG 1042 - Intro to Cloud Computing

Dual Enrollment Options:
- ProStart I
- ProStart II
- ProStart Youth Apprenticeship
- EDHD 1030 - Early Ed Field Experience
- STEM 1000 - STEM Methods
- LCRT 2000 - Rebels, Villains, & Superheroes
- SPED 1400 - Universal Design for Learning
- CLDE 1000 - Language, Power, & Identity
- SPED 1030 - Understanding (dis)Ability in Contemporary Classrooms
- HDFR 1005 - Child Development
- INTE 2000 - Digital Teaching and Learning
- AES 1100 - Aviation Fundamentals
- AES 1710 - Flight Simulation I
- AES 1400 - Aviation Weather

Industry Certificates Available:
- EMR
- EMT
- CNA
- OSHA
- NC3, SNAP-ON
- SACA
- FAA Private Pilot Knowledge
  - Examination preparation
- ServeSafe Food Handler
- ServeSafe Manager
CASTLE ROCK
Castle View High School

Career and Technical Education Programs:

Advanced Placement
Daniel C. Oakes High School is an alternative option and school of choice for students to earn their high school diploma. D.C. Oakes offers smaller class sizes, personal connection with peers and staff, and prides itself on a sense of community and family.

Eagle Academy is DCSD’s afternoon/evening high school dedicated to serving the needs of high school students seeking an alternative path to earning a high school diploma. At Eagle we embrace the notion of FAMILY and promote this in our ability to foster strong relationships with our students and rekindle their desire to learn and achieve. Eagle also believes in the social and emotional well-being of our students incorporating a four-member mental health team designed to help them find balance in their lives.

**Career and Technical Education Programs**
- ACE - Career Development
- ACE - Work Based Learning
- ACE - Capstone

**Work-Based Learning Options**
- Concurrent Enrollment Classes
- College Algebra
- Math for Liberal Arts
- Art Appreciation
eDCSD Online is a K-12 online education program that is offered by Douglas County School District. At eDCSD Online, we understand that not all students thrive in the same environment and not all students learn the same way. Online learning allows a student’s creativity, problem-solving, and communication skills to combine with technology for the ultimate educational experience.

The Bridge Transition Program provides specialized instruction to students 18 - 21 years old with disabilities who have continued needs in education, career and adult living skills to work toward their post secondary outcomes. The priority outcomes for our students are Functional Academics, Daily Living Skills, Social Emotional Skills, Employability Skills, and Community Skills are achieved through working on their IEP goals.
VALE: Venture Academy of Leadership and Entrepreneurship

VALE is a “small by design” school built on the bedrock of Belonging and Innovation with the mission of preparing our students to be entrepreneurial change makers who are postsecondary ready. By the time VALE students graduate, they will be published, patented practitioners who see problems as opportunities and are therefore marketable immediately in the workforce or college ready depending on their choice.

“65% of elementary students will have jobs that have yet to be created” (World Economic Forum). VALE is designed for two outcomes. First, we must prepare students for the world that exists right now. Students should be college ready and demonstrate growth and achievement by the traditional measures that are currently used as currency in the education world. Second, we must prepare students for the world that doesn’t exist... yet. In order to do so, VALE’s culture and instructional programming is built around leadership and entrepreneurship. VALE students will embrace, cultivate, and leverage the entrepreneurial mindset to tackle relevant challenges that make them world ready.

VALE students:

- see challenges as opportunities
- have a bias towards action and take initiative
- are flexible, adaptable, and believe in the power of iteration
- are responsible risk takers
- critically think through challenges by understanding perspective, bias, and assumption
- see the power of curiosity, play, and purpose
- value inclusion, belonging, and vulnerability

The following CTE programs in partnership with the University of Denver will foster the entrepreneurial mindset and help students work toward VALE’s three graduation outcomes of being: Published, Patented, Practitioners.

50010 - Global Leaders and Learners
55550 - Career Pathway
30456 - Project Management
25525 - Entrepreneurship
79103101 - CTE Design Career Pathways
79061101 - CTE Bus & Marketing Essentials
00003 - Work Experience
79061105 - CTE Ethical Leadership
79061304 - CTE Legal Environment of Business
The Douglas County Support Center is a voluntary, free nine-week strength-based transition program intended to support students who are expelled, at-risk of expulsion, exhibit chronic absenteeism, substance use and/or have experienced significant trauma. The students remain enrolled at their home high school but attend (as a secondary enrollment) in-person Monday through Thursday and Fridays virtually. All students receive instruction from licensed, certified teachers and mental health personnel. One-on-one tutoring is available every Monday from 1:00 – 3:00 pm for nine weeks and random drug testing occurs on a monthly basis. Academic credit recovery is available through online classes and direct instruction. Post-secondary counseling and planning is provided to all students. The goal of the program is to assist in removing social-emotional and academic barriers so that students are more available for learning.

The DCSD GED Center is a private, Pearson/VUE/GED Authorized Testing Center.

Successful students have attended high school in a traditional or alternative setting, are at least 17 years of age and are unable to graduate “on time” or with their class due to credit deficiencies. Students may participate in free tutoring to prepare for the GED Test and take the Official GED Tests from this location. Testing is available by appointment only.

In compliance with Titles VI & VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, the Age Discrimination in Employment Act of 1967, the Americans with Disabilities Act, the Genetic Information Nondiscrimination Act of 2008, and Colorado law, the Douglas County School District RE-1 does not unlawfully discriminate against otherwise qualified students, employees, applicants for employment, or members of the public on the basis of disability, race, creed, color, sex, sexual orientation, marital status, national origin, religion, ancestry, or need for special education services. Discrimination against employees and applicants for employment based on age, genetic information, and conditions related to pregnancy or childbirth is also prohibited in accordance with state and/or federal law. Complaint procedures have been established for students, parents, employees, and members of the public. The School District’s Compliance Officer and Title IX Coordinator to address complaints alleging sexual harassment under Title IX is Aaron Henderson, 620 Wilcox Street, Castle Rock, Colorado, complianceofficer@dcsdk12.org, 720-433-1083.

Outside Agencies

Complaints regarding violations of Title VI (race, national origin), Title IX (sex, gender), Section 504/ADA (handicap or disability), may be filed directly with the Office for Civil Rights, U.S. Department of Education, 1244 North Speer Blvd., Suite 310, Denver, CO 80204. Complaints regarding violations of Title VII (employment) and the ADEA (prohibiting age discrimination in employment) may be filed directly with the Federal Office of Equal Employment Opportunity Commission, 303 E. 17th Ave., Suite 510, Denver, CO 80202, or the Colorado Civil Rights Commission, 1560 Broadway, Suite 1050, Denver, CO 80202.
